

Feature Car of the Month: April, 2011

This month's feature car belongs to Steve & Paula Kiser. Steve & Paula have been members since July 2010. This jet black coupe is powered by an all aluminum modular V8 coyote 5.0 liter. With 11:01 compression, 80 mm throttle body, and 86mm mass air flow meter and a 6 speed transmission this modern muscle Stang makes 412 hp and still gets 26 mpg. Truly awesome!!!!
