

## ***Feature Car of the Month: June, 2011***

***This month's feature car belongs to Jeff Watterson. Jeff joined SCMC in September 2007. Jeff has recently done some modifications to this beautiful Torch Red GT. Jeff had Mongello Motors of East Haven, CT install a Sniper Computer. This 4.6 GT is also enhanced by the addition of a Flowmaster Cat Back exhaust; Trickflow Systems throttle body and a BBK Cold Air Kit. Jeff also improved the appearance of his GT with the addition of chrome wheels; Steeda side stripe and front black lower bumper. Very subtle changes but very easy on the eyes. This is truly one well loved Mustang!***
