

FEATURE CAR

October, 2006

Jeff Morton 's
1964 1/2 Convertible

This months feature car belongs to Jeff Morton. Jeff has been a member since April 2006. This yellow convertible with a black rag top is a sweet looking Stang. The 289 has been rebuilt and has a generator not an alternator. The tranny is a C4 automatic. This pony has GT lights in the front and has disc brakes. it must be fun to cruise down the road in the open air and just feeling cool. I like it!!
