

Feature Car of the Month: October, 2011

This month's feature car belongs to Richard Kohlbrecher. Richard and his wife Celina joined SCMC in June 2011. This 2009 Bullitt is you guessed it Highland Green. A Bullitt by any other color just isn't a Bullitt. This Stang has the 4.6 liter power plant that is backed up with a Tremec 5 speed transmission and 3.73 rear gears. The Bullitt also has some neat add on accessories such as CDC Sequential tail lights, SHR quarter window louvers, SHR grille insert BKU oil separator, NXT hood struts, Scott Drake engine caps, Stack Racing tail light bezels, MGW shifter, and for good tone a Magnaflow exhaust.
