

Mustangs Unlimited Manchester, CT

6-26-2011

The rain date for the Mustangs Unlimited show proved to be just as hot as it was nice in the weather department. There was great music food and of course around 300 awesome Mustangs in attendance. There were also a few SCMC members showing off their Stang's as well. See how many you can recognize. There was also a car there that may look familiar to some of you. See if you recognize the car and what make it is.

This is the mystery car. Take a good look. And yes it is minus the blower. It is an Australian made Ford Falcon. Nice car but why is the steering wheel on the right?!
