

President's Corner

February, 2010

Hello gang;

Even though the holidays are behind us I wish this weather was also. I am looking forward to spring and getting to use the Mustang again. With that being said, last month lots of things were discussed for the upcoming season. The goal starting this year is to take a step back and rethink some of the things in the past and improve on them. Some of the old events that people liked that have gone by the wayside are going to get another look to see how to improve them and get them back on the calendar. Also this month, Kevin Brouillard from Tri-Town Foods is scheduled to be at the February meeting to discuss ways to better the monthly cruise events at his store in Uncasville. We look forward to his thoughts.

Again anyone with show dates for the calendar should get the information to me now so the calendar can be finished. As a reminder anyone with sponsor contacts should start to contact them and please see if they would also like to have us do some kind of small event for them. If so please gather their thoughts so we can get something in the works for them. With out our sponsors we cannot do what we do.

The February meeting is on the 20th at Olympic Pizza in Norwich from 4-6 pm and there will be food. Last month many of you attended and I hope to see you all there. Remember this is your club so bring your ideas to this months meeting and help to move things forward in a positive way.

See you all there,
Lucien
